

**THANK YOU ALL FOR MAKING THESE TWO BLESSINGS POSSIBLE WITH YOUR GIFTS!**

### **Praise God Armando and Olivia are moved in!**

After about one and a half years of building we were able to finally move our assistant pastors into their new home. The dimensions are 30 x 35 and includes: 2 bedrooms, storage/laundry room, bathroom, kitchen and living room. Armando also helped Mark a lot in doing the things that he was able to while Olivia would cook the meals if Roxane was out in Chihuahua with the girls. It takes awhile to finish a building project here because of all the other things that demand our time with running a ministry—people that need words of encouragement, others that stop in for one reason or another, services to prepare for, upkeep that is needed on our buildings and vehicle maintenance, etc.

Armando and Olivia have been such a blessing to us as a family and to the ministry. Working here all alone for so many years has been very difficult on us especially when we have had to leave to visit our families in the US, to attend the yearly pastor's conferences down south, and to be with Crystal and Cassandra while they are in Chihuahua. Now since they live on our land right next to the church they are able to run the ministry - even when they are called upon at the last minute. The work is not hindered - people are visited - hospital ministry continues - services are held - weekly bible study moves forward - our home and church are watched over and we are able to leave without any concerns or worries! Thank you dear heavenly Father for answering a great need!

### **A desire of Mark and Daniel is finally coming to pass!**

Since the mechanics here in San Juanito do not have a good reputation we have always maintained our own vehicles. We are so blessed that Daniel enjoys working on vehicles just as much as Mark does. This shop is 30 x 30 and one side of it is being dugged out so they are able to stand while working under the vehicle. Since Mark's shoulder has been bothering him these last few years he is so looking forward to be able to work on them with a little more comfort. How sweet will this be especially during the five months of rain we have and throughout the cold months!
